

VXi UC ProSet LUX™

VXi UC ProSet LUX™. The ultimate UC headset.

The VXi UC ProSet LUX builds on the UC ProSet's revolutionary combination of sound quality, durability, reliability and comfort. Adding a plug-and-play USB interface, and true hi-fi stereo sound, the UC ProSet LUX is designed to maximize the efficiencies of any Unified Communications system. Two models are available, stereo and monaural, and like all VXi CC&O headsets, they feature a two-year warranty.

VXi UC ProSet LUX 31 (5031U+) – Stereo hi-fi headset

VXi UC ProSet LUX 10 (5010U+) – Monaural hi-fi headset

Target Applications

The VXi UC ProSet LUX is primarily designed for Unified Communications applications in the office, with contact centers as a secondary market.

Product Highlights

- Hi-fi audio for superior sound quality from any source.
- USB interface for plug-and-play ease of use.
- Inline control of volume, mute, on/off hook.
- Superior noise-canceling eliminates background noise and improves communication.
- LED presence indicator on microphone boom, designed around established Unified Communication status standards.
- Lightweight, attractive design.
- Real-world durability stands up to 24/7 use.
- High-quality design and manufacturing, down to details like the kink-free, braided cord and flexible microphone boom.
- Two models to choose from, stereo (two speakers) and monaural (one speaker).
- Two-year warranty.

Problem-Solving Features

- Superior noise-canceling microphone ensures that the caller's voice is clearly heard, without distracting background noise.
- Hi-fi audio provides excellent sound quality across the UC platform, reducing misunderstandings, user fatigue and frustration.

Benefits to the End User

- USB interface for straightforward ease of use.
- Seamless transition between music and telephony.
- Lightweight, custom-fit design for all-day comfort and stability.
- Crystal-clear, easy-to-understand sound quality for accurate, efficient, cross-application communication.
- Durable construction is reliable, day after day.

Benefits to the Employer

- Hi-fi audio and advanced noise-canceling deliver more productive communications.
- Interfaces with popular PC-based Unified Communications systems.
- Smart, ergonomic design is comfortable and stays put, so users stay focused.
- High quality materials and construction means it's built to last and last, even when used all day, every day.
